**Seven Oases Development Program**

Delta provided engineering design review and construction management services for mechanical systems modernization at seven Tollway Oasis. This work involved review of design documents prepared by others to ensure technical accuracy and compliance with applicable codes. Delta performed the field inspection and observation and issued field instructions as instructed by ISTHA. Delta also attended project review and coordination meetings at the site office or the project site to help ISTHA complete each facility. Delta reviewed submittals of shop drawings and technical clarifications per the RFI response, and reviewed as-built drawings submitted by the contractor. Delta was involved in providing updated HVAC, plumbing and fire protection system design documents throughout technical review process. This project involved assurance of compliance of various City and State codes. Other work involved vendor and public areas and gas stations. Delta also prepared punch list reports. Vendors included: McDonalds, Panda Express, Subway, Starbucks, KFC, Taco Bell, Kronos Gyros, Bresler's Ice Cream & Yogurt, Auntie Anne's Pretzels, Travel Mart, and the Illinois Lottery.

The work was completed at the following locations in Illinois:
